## AFTER A LENGTHY DEBATE

The Second Agreement of the Conferees Finally Was Put Through. The Educational Test Has Been Changed The Sections Relating to "Canadian Birds of Passage,"

In order that P might prepare the bill anking appropriations for carrying on the postal service in the year ended June 30, 1898, the Committee on Postoffices and Post Roads, on motion of Mr. Loud, today, was permitted to sit during the sessions of the House

Mr. Danford called up the second agreement of the conferees on the immigration bill, which was presented to the House yesterday, and after treating of the statement by the conferces, he demanded the pre-

ane will as agreed upon provides for the soion of Illiterate wives and children of male imagrants who themselves are eligible to admission. The educational test was changed so as to admit any male immigrant, otherwise qualified, who can read and write the English or some other Isn guage. The first agreement compelled the immigrant to read and write in the language of their "native or resident nation." The sections relating to the coming of "birds of passage," especially over the Canadian order, have been changed to read as follows:

ction 4. That it shall hereafter be unlawful for any male alien who has not in good faith made his declaration before the proper court of his intention to become citizen of the United States, to be employed on any public works of the United States, or to come regularly or habitually into the United States by land or water for the purpose of engaging in any mechanical trade or manual labor, for wages or salary, returning from time to time to foreign country.
"Section 5. That it shall be unlawful

for any person, partnership, company or corporation knowingly to employ any alien oming into the United States in viola tion of the next preceding section of this act; provided, that the provisions of this act shall not apply to the employment of sailors, deck hands, or other employes of vessels; or railread train hands, such as conoctors, engineers, brakemen, firemen or baggagemen, whose duties require them to pass over the frontier to reach the termini of their runs, or to boatmen or guides on the lakes and rivers on the northern

border of the United States. "Section 6. That any violation of the provisions of sections 4 and 5 of this act by any alien or citizen shall be deemed a misdemennor, punishable by a fine not exceeding \$500 or by imprisonment for the term of not exceeding one year, or by both such fine and imprisonment, in the discretion of the court. Provided, That all per sons convicted of a violation of section 4 of this acc shall be deported to the coun-

try whence they came Section 7. That notwithstanding the provisions of this or any other existing law. the Secretary of the Treasury may permit aliens to enter this country for the purpose of teaching new arts or industries under such rules and regulations as he may

A new section was added as follows: Section 8. That this act shall not apply to persons arriving in the United States an any port or place in the Island of Cuba during the continuance of the present disorders there, who have heretofore been

inhabitants of that island," Mr. Maliany antagonized the adoption

of the conference report. Pending the discussion of the bill, a message was received from the Senate, conveying a concurrent resolution, requesting the President to return to Congress the Senate bill recently passed to amend the notion of Mr. Hyde, the House concurred in

the resolution. The immigration bill was further disussed by Mr. Klefer, Mr. Maguire and Mr. McCall, and the report was agreed to-162 to 14. A demand for the year and nays was seconded. The vote resulted: Yeas 217.

Finally he got mad because I wouldn't take the rifle and pony. You never saw such fools. Why didn't I make the trade. I would, but you see, that was

the trade? I would, but you see, that was the only drink I lud." This story is used to flustrate the power of human habits, and to speak particularly to those who are annoyed with the coffee habit, which is the cause of an immense amount of sickness, the coffee never being suspected. The coroner's inquest over the body of Robert Jones, the sixteen-year-old colored boy who was shot and killed by his brother yesterday, as told in The Times, began at 2 o'clock this afternoon at the New Jersey avenue station house. As there were no immediate witnesses to the tragedy only a limited number of persons were sun

moned to the inquest.

The list included Dr. Turner, of Emergency Hospital; Dr. George G. Morris, at whose house the shooting took place; Mrs. Annie Jones, mother of the two boys; L. C. Baker, a roomer in the house; Sergt, Acton. and Patrolmen Emmert and Cowne.

### Secretary Olney Gives Advice to American Tourists,

The President yesterday transmitted to Congress a communication from the Secretary of State and accompanying reports from United States diplomatic and consular officers on the passport regulations of foreign countries. In his communica to the President, Secretary Olney says:

The reports show under what regula-tions foreign states admit American citizens and others, and what formalities are required of them during their sojourn and upon their departure. It is thought that this information will prove especially valuable to citizens going abroad, as it will enable them to know with some degree of certainty when they may be alle's upon for passports, and under what circumstances.

The department has at various times in the past advised American citizens, about proceed abroad, to provide themselves with passports from this government. Alough the tendency of recent years has been toward freer and less hampered travel, some governments still exact passports

before admitting foreigners. As many individual cases of inconventence arising from a failure to procure passports have been brought to the tion of the department it must be said that it is still a wise precaution, if not a necessity, for all Americans to carry passports from their government.

THE POTOMAC IS SUBSIDING.

The Water Lower Than Yesterday and No Danger Apprehended,

the next twenty-four hours it is practically certain that there will be no abnormal rise in the Potomac. The gradual thaw and breaking up of the ice about Great Falls has obvigged all danger of an ice gorge, and since Satarday night the river, pretty wellfilled with ice, has been running freely, and there is now no danger of its backing

up at any point this side of the falls. Along the river front the water is full two feet below the danger point, with all the moving ice well in the middle of the stream, so no damage is apprehended to property at the various wharves.

The officials at the Aqueduct office in Georgetown say that the water is a foot and a half lower than during the October freshet, and owing to the gradual discharge of the loe there has been no danger at any time since Saturday night. They are also confident that there is no ice backed up beyond Great Falls, the place where their bservations end
